1 Career Objective

Looking for an internship program where I could learn under working professional to gain knowledge and improvement of my skills by giving some input to the organization.

---

2 Education

Sr no	class	Institution	board	score	passing year
1	TY	walchand coe sangli	SUK	8.15	on going
2	SY			8.1	2016-17
3	FY			8.15	2015-16
4	HSC	Jawahar Navodaya Vidyalaya Sindhudurg	CBSE	90.8%	2013-14
5	SSC			90.4%	2011-12

---

3 Projects

1. **Spotter Snake**
   - E-yantra robotics competition by IITB. **(Aug 2017-Mar 2018)**
   - Designing and building of a biomorphic robot that resembles a snake capable of traversing different terrains and can be used to detect rodents present in warehouse.
2. **Braille watch**
   - Ignited Innovators of India by COE Pune and EATON. **(Nov 2017-Mar 2018)**
   - The project is based on braille language used by blind people to read the text. We have used a microcontroller MSP430G2253 and RTC module to actuate the linear actuator which will display time in braille format when requested by user
3. Line Following Based Multipurpose System for Hospitals:
   - India Innovation challenge design contest by Texas Instruments and IIM Bangalore.**(Quarter final ongoing)**
   - Our idea is to make a clone of sweeper robot and delivery robot to perform multiple tasks semi-autonomously and autonomously.
4. **Anti-pilferage and anti-adulteration system for fuel road tankers**

- Smart India Hackathon 2017**(Stage to ongoing)**
- System addresses the problem of pilferage and adulteration of fuel tanks en-route from terminals to retail outlets by continuous monitoring of location, level, pressure and temperature parameters with cloud connectivity also ensuring emergency management.

5. **Waveform generator**

   - TY B-Tech Mini project**(Jul 2017-Dec 2017)**
   - Designed a system to generate waveform using PWM and also using DAC module of LPC2148 microcontroller
